

# BSG:Insight

(formerly BSG Newsletter for members and non members)

## Insight—Building a safer future

13 July 2010:  
CITB Grant Update  
Occupational Health  
Scaffold Legislation Changes  
Good News

### Welcome!

To coincide with the production of our new brochure, I would like to welcome you to our redesigned and renamed BSG Newsletter, BSG:Insight. It will continue to update you on new regulations that effect you, key discussion points, and BSG products and services that could benefit you.

**Nebosh Construction Certificate only £1500!**  
[Book Now!](#)

Health & Safety : Its not just you it affects

As always, our Industry newsletter, BSG Online News Update, will be distributed to members at the beginning of every month.

### CITB Grant Update

The CITB achievement grants for the Site Safety Plus courses will no longer be available as of 1 August, but there is still time to make the most of the old grant scheme.

The SSSTS course will run on 20 and 21 July at our training centre in Bristol. Only £350 + vat for non-members (includes CITB certification, course material, and lunch!)

Alternatively, if you have 6 or more people we could run the course at a venue of your choosing.

### 'Constructing Better Health' Offers

As an affiliate member of CBH, we have negotiated two very special offers to benefit our members. There are specific legal duties on employers in respect of the management of occupational health risks and the statutory surveillance of workers exposed to those risks.

CBH are a not for profit organisation, working in partnership with the occupational health community to deliver solutions for the pro-active management of construction specific work related health.

**Offer 1:-** BSG members can benefit from a 20% discount on their first year of CBH membership

**Offer 2:-** BSG members are eligible for a 15% discount off the CBH non member tariff for all publications.

[Request Further Info on this, and other member benefits](#)

### Scaffold legislation changes

As previously reported, the HSE will no longer acknowledge BS5973:1993 as a recognised standard for the design of tube and fitting scaffolding structures.

All UK scaffolding should fully conform to the European Standard BS EN12811-1:2003 by the end of 2010. The guidance document for tube and fitting scaffolds to meet this European standard is TG20\_08.

[More info on the changes](#)

[Scaffold Inspection Course](#)

The BSG Scaffold Course is one step ahead, incorporating the new legislation to ensure maximum compliance.

### Good News!
