AVAILABLE COURSES

The Building Safety Group

Hope you have been enjoying the sunny weekend. Looks like the weather will be changing (again!) but at least we can watch the sun in South Africa for the next month! No doubt the English players will be complaining about the heat and humidity on Saturday!

FACE FIT

Due to increasing demand we are looking into the viability and affordability of running Face Fit testing/train the trainer.

I would welcome your feedback particularly on the following:

- whether you would attend a course at our training centre in Bristol?
- if you would want 6 or more trained at your own premises?
- whether you would like our Safety Advisers should provide training on site (similar to tool box talks)?
- whether you would like to purchase kit from us, or if you have this already?

Please email me with any feedback:

RobP@bsgltd.co.uk

FAO BSG MEMBERS : DIGITAL PEN REPORTS

Remember you can access your Site Inspection Reports online.

If you have lost your password details then please contact Kim Bowen.

PAY BY CARD!

I'm pleased to announce that, in addition to accepting cheque and BACS payments, we can now accept debit and credit card payments for Membership and Training Services.

If you would like to pay in this way, please contact me or speak to our accounts department.

REDUCTION IN CITB GRANTS

CITB will be abolishing all Site Safety Plus achievement grants from 1 August 2010. Courses such as SMSTS and SSSTS will be affected. This is a significant grant, so if you have requirements in the foreseeable future, we recommend you get in quick!

SMSTS	5 day course	15th June—13 July	MORE INFO
SMSTS Refresher	2 day course	19 and 20 July	MORE INFO
SSSTS	2 day course	5 and 6 August	MORE INFO

WORKING AT HEIGHT

Recent HSE figures state that over 4,000 employees suffered a major injury as a result of a fall from height in 2008/09. The effects of slips, trips and falls at work affect those involved, their families and the industries they work in. The cost to society alone is estimated at £800 million per year.

Working at Height half day course 28 June
